

Event Planning Guide

Planning is very important to the success of any event. When your guests are provided with adequate restroom facilities, they stay longer (and thus spend more!). Include Don's Johns Units in proper quantities to ensure comfort for your guests as well as maximize your revenues.

Don't hesitate to call (703) 273-7100 or email sales@donsjohns.com for our expert guidance.

Based on 40+ years of experience as a woman-owned business, we recommend the following:

- If alcoholic beverages are served, increase the number of units by 20%
- If the percentage of women in attendance increases beyond 50%, increase the number of units by 25-50%
- Always include at least one Wheelchair Accessible Unit (Americans with Disabilities Act Compliant) per "cluster" of units. Ensure 10% of your total number of units are handicapped units. For events with a higher number of individuals in wheelchairs, increase this percentage accordingly

People Attending	EVENT DURATION										NUMBER OF UNITS NEEDED
	1 HR	2 HRS	3 HRS	4 HRS	5 HRS	6 HRS	7 HRS	8 HRS	9 HRS	10 HRS	
0-50	1	1	1	2	2	2	2	2	2	2	
50-100	2	2	2	2	3	3	3	3	3	3	
100-250	3	3	3	3	4	4	4	4	6	6	
250-500	4	4	4	6	6	6	8	8	8	8	
500-750	4	4	6	6	6	8	8	8	10	10	
750-1000	6	6	6	8	8	8	12	12	12	12	
2000	8	8	8	8	8	12	12	12	12	16	
3000	8	12	9	16	18	18	18	19	20	21	
4000	10	16	15	22	24	25	25	27	27	28	
5000	12	20	24	27	29	31	32	34	35	35	
6000	14	24	28	33	35	37	37	39	40	41	
7000	17	27	34	38	41	42	46	46	47	48	
8000	20	31	38	44	48	50	50	50	52	54	
9000	22	32	42	48	51	54	54	56	58	64	
10000	24	39	47	54	58	62	64	66	68	72	

This chart assumes a maximum acceptable waiting line of 10 people. Many events prefer shorter lines, increase unit quantities appropriately
